SUN SPA PRIVILÈGE

BEFORE & AFTER SUN TREATMENTS

BEFORE SUN TREATMENTS

Pre-Sun Exposure Treatment

This preparing care optimizes the adaptation of the skin to sunlight. Gentle non graining exfoliation and highly moisturizing and energizing care protect against dehydration and preserves the youthfulness of the skin.

Bronz Impulse Treatment

This preparing care optimizes the adaptation of the skin to sunlight and helps boost a faster, more intense and long-lasting tan.

A gentle non graining exfoliation associated to the application of highly moisturizing and energizing care protect against dehydration and preserves the skin youthfulness.

Fast Tan Sublimation Treatment

This high nutrition tanning activator treatment is ideal to trigger or accelerate the natural tanning mechanism: it is reserved for a exposure of 20mn.

Delicate Skin Pampering Treatment

Ideal for intolerant skins. A gentle treatment with exfoliation and moisturizer to help skin adapt to the sun.

AFTERSUN TREATMENTS

Moisturizing After Sun

A specific care which optimizes the skin's cellular defenses against the sun and protects against photo-sensitizing environmental factors, for revitalized skin, better armed against pigmentary disorders.

After Sun Long Lasting Tan (option exfoliation)

This treatment is recommended for already tanned skin or the end of a vacation, for a radiant and long-lasting tan.

Optionally, gentle exfoliation helps revive the color and brightness of the tan and prevents dullness in very dark skin.

SOS After Sun

This highly moisturizing anti-sunburn care for face and body soothes and repairs over-exposed skin and strengthens its resistance to sunlight.

SUN SPA PRIVILÈGE

TAILOR-MADE FULL DAY PROGRAM

THE VERY ESSENCE OF THE ESTHEDERM SUN SPA

Transforming a day at the beach into a unique experience, alchemy between the sun, perfect knowledge of your skin and the expertise of a perfect tan.

Everything starts with a diagnosis...

Depending on what you want, analyzing your skin tone and your sun exposure habits, our Sun Spa Therapist makes a solar expert diagnosis and delivers a highly customized prescription that adapts over your vacation according to your tanning goals and progress of your tan.

STEP 1: Before Sun Treatment

A body scrub and facial exfoliation, gentle and grain-free, precise gestures, respectful of the skin, to remove dead cells and dull complexion, and promote the faster availability of melanin.

The result?

Incomparably soft and radiant skin, better armed against photoaging, ready for an even and long-lasting tan.

STEP 2: Pool & Beach Service

Depending on the sensitivity of your skin and your tanning requirement, a tailor-made program starts with the very first exposure to the sun. Every hour or two, after each bath at the pool or at the beach, our Sun Spa Therapist applies and reapplies the sun treatment that has been prescribed, in soft and relaxing massages, inspired by the hallmark techniques of ESTHEDERM SUN SPA.

STEP 3: After Sun Treatment

Back from the beach or the pool, the Sun Spa Therapist lavishes an extremely relaxing body massage with the appropriate face and body treatment, which repairs and stimulates melanin: a soothing beauty program for radiant skin at dinner.

SUN SPAPRIVILÈGE

TAILOR-MADE FULL DAY PROGRAM

ACCORDING TO YOUR TANNING OBJECTIVES

«I DO NOT WISH TO TAN» PROGRAMS

I have pigmentation marks, I want my skin to get lighter:

PHOTO REVERSE PROGRAM

The first high protection that inhibits the pigmentation process. Hyperpigmented skins can gradually lighten, while enjoying the sun.

I do not want my skin to get darker. I have specific fragile zones (scars, post-procedure...).
I am allergic to chemical filters:

NO SUN PROGRAM

A very high tolerance 100% mineral sunscreen, for a very high protection sun care.

SUN SPAPRIVILÈGE

TAILOR-MADE FULL DAY PROGRAM

ACCORDING TO YOUR TANNING OBJECTIVES

«I WISHTO TAN» PROGRAMS

I tan very easily, rarely get sunburns:

BRONZ REPAIRPROGRAM

Specific for face and décolleté: helps promote natural, fast tan while protecting against photo aging. Helps stimulate dermis collagen fibers to fight against wrinkles, leaving a firmer, more elastic skin.

ADAPTASUN

Tan quickly and safely, while protecting the youthfulness appearance of the skin.

SUN CARE OIL

For a quicker and deeper tan, sublimate the skin with noble vegetable oils and protects from photo aging.

I tan, but often get sunburns:

ADAPTASUN SENSITIVE

Ideal for tanning without burning in extreme sun conditions, while protecting the youthfulness appearance of the skin.

I always get sunburned, my skin is very sensitive or allergic:

INTO REPAIR

Optimal treatment for sun exposure without intolerance reactions, helps stimulate collagen renewal, minimizing wrinkles and fine lines.

INTOLERANCES SOLAIRES

Skin is strengthened from the inside by boosting its natural defense, while being protected from sun's harmful rays. Over reacting skin can enjoy sun benefits, without suffering.

I have pigmentation marks, but I want an even tan:

PHOTO-REGUL

Safely develop an even tan : pigmentation marks fade, decreasing the contrast between brown marks and surrounding skin.
